Commissioner for Patents

The amendment filed on 6/23/2008 canceling limitations from all independent claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the new set of claims do not require the information to be received from the content providers. The new claims are focused on associating active keys with the current display. Had both sets of claims been presented together they would have been restricted as being drawn to subcombinations usable together. A burden is placed on the Examiner in that now the claims do not require any content providers, opening up the claimed invention to a completely different field of search.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

/Douglas B Blair/
Examiner, Art Unit 2142
